To Whom It May Concern:

Clear Steel® is a sales orientated glass security company. We are a young innovative company doing very well and are always eager to improve our skills. We were approached by David Furriers "Elite Conversions" and were invited to participate in his interpersonal communication/sales motivation seminar.

Both Graham, my general manager, and I gained a huge amount of knowledge from the techniques that David uses and teaches. We have put these techniques into our daily interaction and have already had amazingly positive results.

We have other consulting in our sales team that have already been booked into David's forthcoming seminar in March.

In Summary I would like to highly indorse David's seminar to any forthcoming persons looking at expanding and improving there wellbeing.

Yours truly,

Lloyd Gaunt
Managing Director
