Dear David,

We would like to express our thanks for the seminar attended by both mark and Ken on the 12 June 2000.

They both gained a lot from the session, and we can see the difference in attitude. I thought we would wait a month before writing to you just in case it was just another sales course that fizzled away. Ken reads a few pages of the manual each day, which is encouraging.

Should you have anyone who would like to talk to someone who has attended the course, they are welcome to call Mark or ken.

Thanks and Regards
