Dear David,

TESTIMONIAL for RESULTSCORP SALES CONFERENCE

After attending a ResultzCorp Sales conference I have doubled my fees without a major impact in conversions.

When I first heard about the conference I was sceptical about the value to my business I had attended numerous sales related workshops as over the years, however this conference was quite different.

It has provided me with skills and strategies that I am applying in business as well as personal life.

With an improved confidence and a sales framework, I have increase my fees substantially while maintaining a strong conversion rate.

Within two weeks I recouped by investment for the conference.

I commend the ResultsCorp Sales Conference to any and all involved in sales, especially anyone who considers they already know all that is to be known about sales.

Yours sincerely
