Re: ResultzCorp Sales Training.

Solaris Technology has used ResultzCorp's sales training program in 2010 to improve the sales performance of the sales team. All sales staff was required to attend the 2 day sessions.

Solaris has experienced phenomenal results from David's sales training. Sales conversions have increased from 25% to 70%. Individual sales people who were barely making budget have achieved sales up to 250% over budget.

The investment made in the Resultzcorp training has been recovered in the first month.

In addition to the sales training workshops, David has been involved in creating a presentation folder to ensure that a consistent sales message is given by all sales people across all of our offices.

I highly recommend David's sales training because it produces results!

Dwayne Lange

Managing Director
